

# Respite care at Tupwood Gate Nursing Home in Surrey

At Tupwood Gate we provide **short-term** care allowing the current caregiver a well-earned break from the demands that taking care of an elderly relative can bring. We also provide short breaks to help those needing **post-operative** or **convalescent care** following a stay in hospital to receive support before they are well enough to **return home**. Our highly trained and friendly team of **nurses and care professionals** will ensure each individual's medical and care needs are met.

Tupwood Gate came highly recommended and having looked around various care homes, it soon became clear why. This is a beautiful old house, a welcoming home, and my mother settled in quickly. The staff are very helpful and caring; there's a good range of activities, and it is impeccably clean. There's a lovely garden to sit out in during the summer. The management and staff have done a tremendous job during the Covid-19 crisis; keeping us informed, being open about the situation and enabling communication with residents as much as possible. - Family member

We wish to thank all the team at Tupwood Gate. After three months on a hospital ward he came to Tupwood Gate in a bad way. However after your superb care he improved to the point of playing games and sitting in the garden with the family.
